Verse 1

Why would I ever have to worry
You never never let me down, down, down
I hear You calling me to win
And I'm empowered by the sound, sound, sound

Pre-Chorus

When armies surround me
I may look like nothing at all
But if You are for me
Who can stand against me
You're making my giants look small

Chorus

That's why we shout
We know without a doubt
We have the victory
With You now
We're watching walls come down
We have the victory

Verse 2

Why would I ever have to worry
When I am safe within Your hands, hands, hands
So I'm not giving into fear
With You the enemy won't stand a chance (no chance)

Pre-Chorus

Chorus

Instrumental

Bridge (2X)

The fight doesn't lead me to fear
When You hold me near
There's nothing that I can't face
The freedom You give me
Is reason enough to believe
You will overcome

Chorus
